

# Charlie the Giraffe

---

By: Maya Reno

# What My Litter Critter is Made Of

---

I used a milk jug for the body.

I used a glass wine bottle for the neck.

I used a clorox wipe container for the head.

I used 4 cans for the legs.

I used cork for the horns.

I used cardboard for the ears.

# Charlie's Habitat

---

Charlie lives in grasslands, savannas, or open woodlands.

Charlie likes areas with lots of trees and plants.

Charlie likes to live with other giraffes in different parts of Africa.

# What Charlie Eats

---

Charlie eats evergreen leaves, stems, and twigs.

Charlie pulls the leaves off the trees with her big tongue.

She can eat up to 66 kilograms of food a day.

Charlie drinks a lot of water each day.

# Charlie's Enemys

---

Charlies predators can be lions, hyenas, and leopards.

Crocodiles can be her enemy when she is bending down to drink water.

Humans can also be a predator of Charlie.

# Grade

Your slideshow looks awesome, Maya!  
Great job!
