

Hobart High School

Improvement Goal: Problem Solving

All students will use problem solving skills to think critically and apply knowledge and reason to solve problems.

Expectation(s) for Student Learning:

- All students will achieve higher performance in classes and standardized testing.
- All students will compute accurately with and without a calculator.
- All students will demonstrate problem-solving skills.
- All students will use technology research tools to locate, evaluate, and collect information in order to process data and report results.
- All students will use technology resources in developing strategies and making informed decisions for solving problems.

Target Participants:

All students in Hobart High School

Target Groups:

Hispanics

Free and Reduced

Special Education

Blacks

Limited English

Non-honors students

Interventions:

Curriculum, Instructional and Assessment:

All students will increase skills in problem solving through monitoring progress on academic standards to determine instructional needs.

All students will increase problem solving skills through differentiated instruction across the mathematics curriculum that emphasizes conceptual understanding.

All students will use reasoning and critical thinking to solve problems through applied problem solving **across the curriculum** that provides relevant, concrete, and everyday problems.

Students participating in career pathways will use the defined curriculum set forth by the industry and/or institution that established them.

All students will increase problem solving skills by using technology tools **across the curriculum**.

All students will increase problem solving skills through opportunities for family/community participation.

All students will increase problem solving skills as a result of teacher participation in professional learning communities.

Any student who is failing or needs academic help will have the option to sign up for tutoring.

Hobart High School

Student Support:

Subgroup students with low performance will increase problem solving skills beyond regular classroom instruction with increased academic opportunities.

Students will participate in Multi-Tiered Support System (MTSS) based on achievement and behavior levels.

Students will participate in enriched and high ability courses based on achievement levels.

Staff:

All students will increase problem solving skills as a result of teacher participation in professional learning communities.

All students will increase problem solving skills as a result of teacher technology.

Evaluation:

ACTIONS	SCHEDULE	RESPONSIBILITIES	MONITORING	RESOURCES
<p>Intervention: Assessment/Differentiated Instructional for Conceptual Understanding</p> <p>1. All students will increase problem solving skills through differentiated instruction across the mathematics curriculum that emphasizes conceptual understanding.</p> <p>A. Students will know basic math facts (These help in acquisition and speed of performing math, not in understanding math).</p> <p>B. Students will understand units of measurement and apply appropriate techniques and formulas.</p> <p>C. Students will understand and solve algebraic equations and understand patterns and relationships between numbers.</p> <p>D. Students will identify, describe, and compare geometrical shapes.</p> <p>E. Students will construct and interpret graphs throughout the curriculum as part of data analysis.</p> <p>F. Students will demonstrate the ability to compare and contrast different values.</p>	<p>2017-2021</p>	<p>Teachers Administration Students Parents</p>	<p>-Classroom assessments -Rubrics -ECA Reports - MATH ISTEP -PIVOT</p>	<p>-Peer Tutoring -Manipulatives -Textbooks -Google Docs -Time for Data Analysis -Classroom Data Display -Calculators -Graphing Calculators -Professional Development for curriculum mapping -Go Formative -Khan Academy -Computers / Chromebooks -Springboard</p>

ACTIONS	SCHEDULE	RESPONSIBILITIES	MONITORING	RESOURCES
<p>Intervention: Reasoning and Critical Thinking To Solve Problems</p> <p>1. All students will use reasoning and critical thinking to solve problems through applied mathematics across the curriculum that provide relevant, concrete, and everyday problems.</p> <p style="padding-left: 20px;">A. Students will build academic vocabulary across the curriculum.</p> <p style="padding-left: 20px;">B. Students will understand and choose the correct mathematical operation to solve problems in math and science. (Example: Similarities and Differences/Graphic Organizers- Marzano)</p> <p style="padding-left: 20px;">C. Students will use mental math/estimation to understand when an exact answer or an estimate is sufficient.</p> <p style="padding-left: 20px;">D. Students will develop a set of problem solving strategies across the curriculum.</p> <p>Example:</p> <ol style="list-style-type: none"> 1. What is the question asking? 2. Assign variables. 3. Set up an equation. 4. Algebraically solve the equation 5. Check for reasonableness. 	<p>2017-2021</p>	<p>Teachers Administration Students Parents 9-12 Cross-curricular</p>	<p>-Classroom Assessments -Teacher Observations -Student Presentations -PIVOT - Springboard</p>	<p>-Khan Academy -<i>Classroom Instruction That Works</i> by Robert Marzano -<i>Choice of Words Building Academic Vocabulary</i> by Marzano -Time for data analysis -Schedules -Professional Development -After School Tutoring -Math Lab class -PIVOT -Springboard -Portfolios</p>
