

Dear Families,

Learning and growing doesn't stop over the summer! You can help your student accelerate their learning with Freckle. Because the activities are fun and adapt to your student's level, they will love to practice on Freckle.

Freckle is accessible 24/7, wherever an Internet connection is available. Since Freckle is continuously challenging students, using Freckle throughout the summer can boost learning and prepare students for the next school year.

Here are 5 ways to promote learning with your student this summer:

- Set a learning schedule and stick with it.
- Set weekly goals and challenges.
- Talk with your student about what they are learning on Freckle.
- Review your student's Report Card (in their backpack) and help them take ownership of their growth!
- Celebrate success when your student reaches a goal or makes progress.

With a little bit of support from you, Freckle can keep your student motivated and learning this summer.

We wish you a wonderful summer full of learning and joyful experiences.
