## "SERVING UP" Safe Meals

As we all are finding our NEW normal, we want our students, parents and community to know that we take food safety and sanitation very seriously!

We have always had procedures in place to clean and sanitize as a part of our daily routines. Handwashing, glove usage, hand sanitizer stations as well as washing and sanitizing of surfaces both in the cafeterias and kitchens were in place PRIOR to the COVID-19 pandemic. All of these processes have been re-evaluated to include even more rigorous safety measures to ensure the health and safety of both students and staff.

Our staff prides itself in being a trustworthy source of nutritious meals for our customers!

We look forward to serving our students and staff this school year!
